

## OEDS Roles Chart

**Summary:** Both the One Needs Assessment (Decision Framework) and Planning Tool (One Plan) are accessed through a working OH ID account. The district superintendent determines who has access, the type of access granted and asks the OEDS administrator to assign roles in OEDS. There are two levels of access for the One Needs Assessment and the Planning Tool (One Plan): one allows a person to only view the application (reviewer/data view), while the second allows a person to view and change the application (data entry). Role assignments can be made at both the district and building levels (District Only for Community Schools).

OEDS ROLE	ONE NEEDS ASSESSMENT	ONE PLAN
<p><b>Superintendent</b></p>	<p><b>Superintendent</b></p> <p>This role will have data entry access to the One Needs Assessment program for the district and all the buildings in the district.</p> <p><i>Note: Please do not additionally assign the Data Entry-Decision Framework or Reviewer-Decision Framework roles.</i></p>	<p><b>Superintendent</b></p> <p>This role automatically has Data view and entry access to the district and every building in the district.</p> <p><i>Note: Please do not additionally assign the Data Entry Planning-CCIP or Data View Planning-CCIP roles.</i></p>
