September 30th Report for Consolidated Funding Application Grants

Issue Date: May 25, 2004 **Revised Date:** October 18, 2006; November 23, 2007
Key Words: September 30th Report
Summary: The September 30 Report allows local educational agencies to maximize their Title I, IV, and other federal grant carryovers in the CCIP Consolidated Funding Application.

Purpose of Report

The Ohio Department of Education (ODE) asks many local educational agencies (LEAs) to provide expenditure information for selected programs for the period of July 1 through September 30. This information provides additional credit, where necessary, toward the carryover limitations of Titles I and IV or charges appropriate costs to the oldest funds available under many other No Child Left Behind (NCLB) and Individuals with Disabilities Education Act (IDEA-2004) programs.

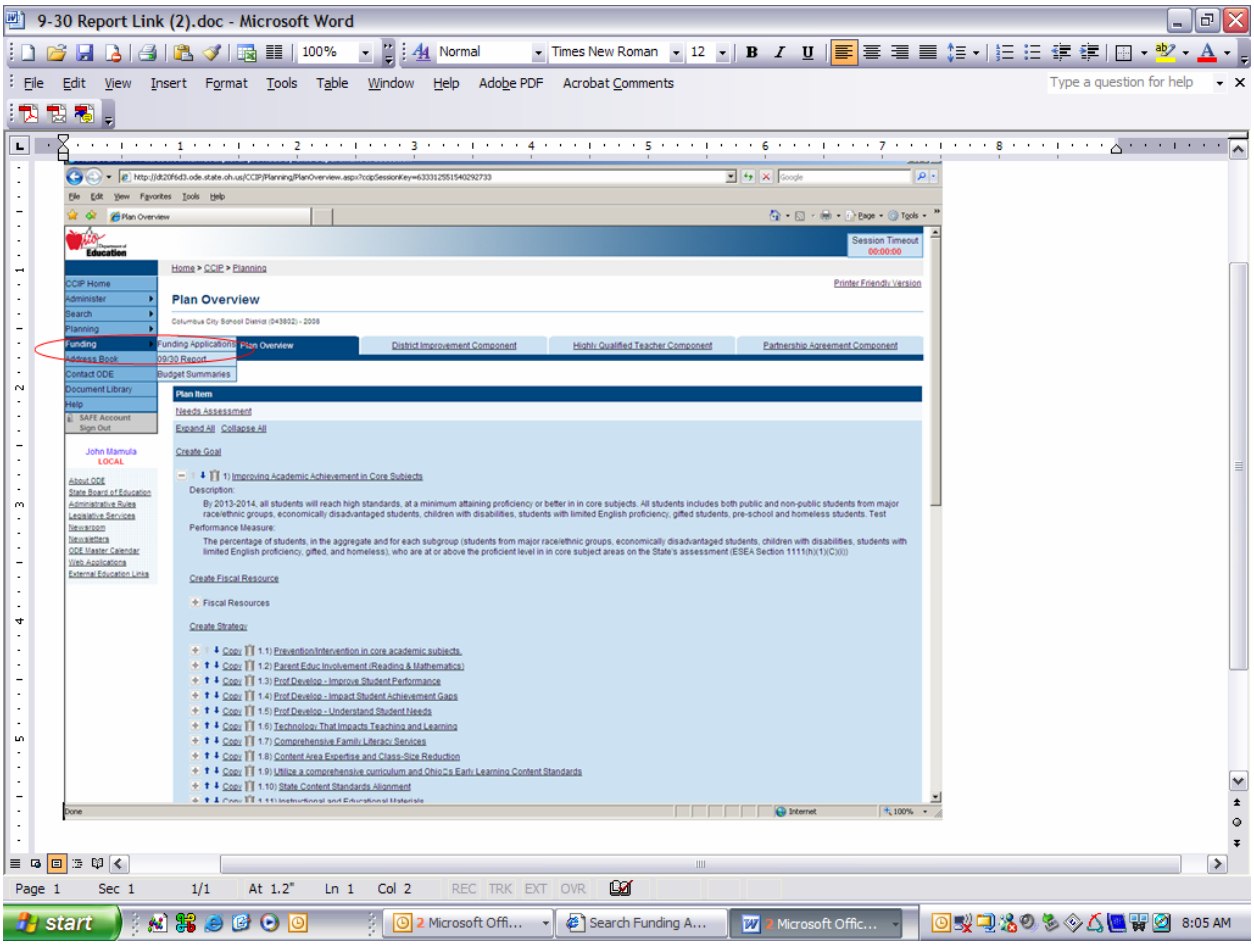

Navigation

Any LEA user with Update or View access to the CCIP Consolidated Funding Application is able to view the 09/30 Report if the report is required. To access the report, log in to CCIP. Click *Funding Application* on the left blue menu. On the drop-down list that appears, select *9/30 Report* as shown in the print screen below. Click this link to bring up the report. More detailed information is shown on the report itself. If the report still shows information from the previous fiscal year, it means the new 9/30 Report for the current fiscal year is not online yet. ONLY the Treasurer/Fiscal Representative is able to SAVE data for this report.

If the Report does not show up in the CCIP to the authorized user, it means the LEA does not have to complete the report.

Due Date of Report

The due date of the report, usually in November or December, is listed in the 9/30 Report and in a CCIP Note each year. After the due date, local educational agencies will not be able to access the *Save Data* function on the report.
