After dissemination candidates have successfully passed the competitive grant read, the next step is an interview to discuss the project in detail, including whether the school has the capacity to do this project. Following are the types of questions that will be asked.

FY10 Public Charter School Program (PCSP)-Dissemination Grant Interview Form

IRN: **School Name:** **Date:**
School Representatives:
ODE Representatives:

---

1. Briefly describe your promising practice, focusing on why it is important to disseminate it, and how it will enable students to remain in school and to achieve at higher levels.

2. What deliverables will you produce? Will they be available in electronic format on your Web site?

3. Do you have potential candidates selected for dissemination? If not, how will you select them and work with them?

4. What results do you anticipate for the recipients of your dissemination practices?

5. Will you be awarding grants to help recipients understand and establish your practice?

6. What data will you keep to demonstrate that your promising practice achieves results for recipients of your training?

7. Will this data be included in your final report on this grant?

8. What is your two-year timeline for this grant?

9. What is your two-year budget for this grant? In your budget narrative, which explains the role of an expense in your project, also connect your expenditures to your proposed timeline. Please indicate all capital expenditures that will be made for your school as part of this dissemination project.

10. Name all people who will be employed by this grant, with position titles, functions in connection with this grant, and total annual salaries from this grant. You must maintain timesheets for each grant employee providing specific details about their work each week on this grant.

11. Is there anything else important about your promising practice that we should know?
