Posting / Notification of SIG Awards: School Improvement Grant 1003g Awarded Funding

Federal Guidance / Requirements:

An SEA must post on its Web site, within 30 days of awarding School Improvement Grants to LEAs, all final LEA applications as well as a summary of those grants that includes the following information:

(a) Name and National Center for Education Statistics (NCES) identification number of each LEA awarded a grant.

(b) Amount of each LEA's grant.

(c) Name and NCES identification number of each school to be served.

(d) Type of intervention to be implemented in each Tier I and Tier II school.

All of this information is accessible through the CCIP. However, below is a summary table:

School Improvement Grant 1003g Awarded Funding

District IRN	District NCES ID	District Name	Building IRN	Building NCES ID	Building Name	Tier	Total Enrollment	FY11 Budget	FY12 Proposed Budget	FY13 Proposed Budget	Intervention Model

In March, the U.S. Department of Education approved Ohio's application for $132 million in School Improvement Grants. Since the first competitive award process for the School Improvement Grant funds did not result in all Tier I schools in the state being served, then Ohio must carry over 25 percent of its funds to award with next year's funds.
These resources are aimed at helping struggling schools improve academic performance. As part of the School Improvement Grant process, ODE identified the lowest achieving five percent of schools in two categories – Title I schools in school improvement and Title I eligible secondary schools. These schools were designated Tier 1 and Tier 2 schools for the purposes of the School Improvement Grant. A third category of schools, Tier 3, were identified as all Title I schools in school improvement status that are not in Tier 1 or Tier 2. The 358 schools identified as Tier 1, Tier 2, or Tier 3 were eligible to apply for competitive School Improvement Grants of $50,000 to $2,000,000 over three years. Tier 1 and Tier 2 schools receive priority for funding and will be required to implement one of four intervention models outlined by the U.S. Department of Education.

These four models include:

- The turnaround model;
- The restart model;
- The school closure model; and
- The transformation model.

The deadline for districts to submit School Improvement Grants for schools identified as Tier 1, Tier 2, and Tier 3 for Cohort 1 was Friday, April 30, 2010. Out of the 358 eligible LEAs, 210 applications were received. A peer review process of the submitted applications was conducted under the guidance of The Ohio State University. Each application was scored using a six-point rubric by three trained external peer reviewers. It is important to note that no ODE staff was involved in reviewing the applications and readers were not allowed to judge a proposal submitted by their institution or an institution in which they may possess a conflict of interest. Schools will have access to the School Improvement Grant funds beginning July 1, 2010.
