Brief Descriptions for Grant Page

21st CCLC

The 21st Century Community Learning Centers (CCLC) is a federally funded grant that assists with the funding of before and/or after-school programs. The purpose of the grant is to extend the students' learning day by providing academic enrichment activities including tutorial services to help students meet state and local student academic content standards in core subjects, such as reading and math.

Adult Basic and Literacy Education Grant

Ohio Adult Basic and Literacy Education (ABLE) is a program within the Division of Academic Affairs and System Integration under the Chancellor of the Ohio Board of Regents. Adult Basic and Literacy Education (ABLE) instructional grants are authorized to serve adults who have less than a 12th-grade education or its functional equivalent and who are beyond the age of compulsory school attendance (age 18 in Ohio).

Agricultural 5th Quarter

The Ag Ed 5th Quarter Grant is a state-funded grant targeting year-round instruction. It was developed to assist local schools and career centers provide supplemental resources to ensure delivery of summer instruction and to develop student entrepreneurial activity and work experience through organized activities and supervised agricultural experience (SAE).

Alternative Education Challenge

The Ohio Alternative Education Challenge Grant is a continuation grant. No new applications will be accepted. It is designed for students who are at risk of school failure and other related problems. For most students, an alternative education program is the only alternative to suspension or expulsion from school. The program keeps students in school, off the streets and under supervision during school hours and has increased the probability that they will graduate from high school and be employed.

Community Schools Public Charter School Program

This federal grant is to be used to start new high-quality community (charter) schools in Ohio.

English Literacy and Civics Education Grant

Ohio Adult Basic and Literacy Education (ABLE) is a program within the Division of Academic Affairs and System Integration under the Chancellor of the Ohio Board of Regents. English Literacy and Civics Education (EL/Civics) grants are authorized to serve adults to provide two components beyond English Language acquisition: citizenship education and civic participation education.

Enhancing Education Through Technology Title II-D

The primary goal of the federal Ed Tech Program is to improve student academic achievement by using technology in schools. This program is designed to assist students in crossing the digital divide by ensuring that every student is technologically literate by the end of eighth grade. The program also encourages the effective integration of technology with teacher training and curriculum

Description for Competitive grants

Even Start

Even Start is a comprehensive family literacy program designed to break the cycle of poverty and low literacy skills by improving the educational opportunities of low-income families with young children.

McKinney-Vento-Homeless Education

The McKinney-Vento Act provides that homeless school-age children and youth have access to a free, appropriate public education that would be provided to the children of a resident of Ohio and is consistent with Ohio's school attendance laws.

Learn and Serve

The Ohio Department of Education (ODE) announces funding is available for school-based service-learning sub-grants to local education agency (LEA) partnerships. Funding is intended to support the implementation, operation or expansion of programs that advance service-learning as a teaching, learning and youth development strategy.

Public Preschool- Early Childhood Education

The Ohio Department of Education (ODE) has awarded Early Childhood Education funding to city, local, exempted village, joint vocational school districts or Educational Service Centers to provide preschool services for three- and four-year-olds of income-eligible families. A school district may contract with a Head Start agency, chartered nonpublic school, Educational Service Centers or licensed child care to provide the preschool services.

Reading First

Reading First is a federally funded grant created to prevent reading failure among students in grades K-3. The Reading First program provides the necessary assistance to States and districts to establish research-based reading programs for students.. Reading First funds also focus on providing significantly increased teacher professional development to ensure that all teachers, including special education teachers, have the skills they need to teach these programs effectively.
