Questions				
Is your school inside an urban area?	Yes	No	City Name	1B1
Are there other community schools in your district?	Yes	No		1B2
Is your school rated in Academic Watch?	Yes	No		1C1
Is your school rated in Academic Emergency?	Yes	No		1D1
Is your school rated in Continuous Improvement?	Yes	No		1D1
Are you a drop-out recovery school?	Yes	No		2A1
Is your school's plan/model available to students at other schools in your district?	Yes	No		1D1
Has your Performance Index Score increased since last year?	Yes	No		1E1
Number of your students who scored at or above on state math proficiency test.			Number of students tested:	1E2
Number of your students who scored at or above on state reading proficiency test.			Number of students tested:	1E3
Number of students who took the OGT.				2D
Number of students who passed the OGT.			Percentage passing:	2D
Did your school receive a financial penalty for inaccurate EMIS data?	Yes	No	Explain:	4A
Did your school fail to report required Local Report Card indicator data?	Yes	No	Explain:	4B

Answer all questions. Place any brief comments below.

Report Narrative

(Do not exceed three pages.)

Description of Dissemination Project.

Your project focuses on supporting student achievement by one of the following options: 1) assisting the start-up of new, independent community schools that use your model; 2) developing partnerships with other schools to disseminate your model or promising practice/s; 3) developing curriculum/assessment materials based on your successful practice/s; 4) conducting evaluations/documentation of your promising practice/s.

1) Indicate which option you selected and describe in detail what you accomplished during the past year.

2) What other schools were involved in the project as dissemination recipients? How many teachers, administrators, school staff, parents, community representatives, students or others were involved in your activities, and what was the nature of their involvement? List the different groups, with the numbers of individuals and how they were involved.

Teachers/Administrators/School Staff

Students/Parents

Community/Other

3) If you created materials to be disseminated, please describe these materials and how they are to be used by the recipients. If the materials are available through a Web link, please insert that link. NOTE: At the end of the second year, copies of all materials must be submitted with the APR.

4) What data did you collect to evaluate your project's impact upon the recipients? If you used pre- and post-assessments, please provide that data.

5) Did you collect evaluations from recipients after the session? Please attach a sample of participant responses.

6) How will your dissemination materials or project be available after the grant ends?

7) Do you have any evidence that student performance of your recipients improved during the two years of your project? When would you estimate that improvement should occur and describe the nature of that improvement (OGT passage, higher performance on reading and math proficiency tests, other evidence of closing the achievement gap)?

8) Have you received any publicity or media attention from your project? Please include samples. Have you presented at any conferences? Please describe.
