Ohio | Department of Education

CCIP Note #251

Keywords: Allocations, Title II-D, and Decision Framework
Attention: Superintendents, Treasurers, and Consolidated Application Contacts
Summary: Enhancing Education Through Technology (Title II-D) was not allocated funds for FY2011-2012.

The Implementation Management and Monitoring (IMM) Tool and Decision Framework (DF) Changes.

Enhancing Education Through Technology (Title II-D) was not allocated funds for FY2011-2012

Superintendents, Treasurers, and Consolidated Application Contacts

FYI

Recently the U.S. Department of Education (USDOE) released the Full-Year Continuing Appropriations Act of 2011 for ED programs. In this Act, USDOE did not allocate funds for the Enhancing Education Through Technology (Title II-D) grant for federal fiscal year 2011 (state fiscal year 2012). As a result, the state of Ohio will not be receiving new Title II-D funding for school year 2011-12. Therefore, local school districts need to be aware that there will be no new Title II-D Consolidated (Entitlement) grants for school year 2011-12. If you have any questions please contact Dan Badea at 614-387-2189.

Ohio Improvement Process:

FYI

1. IMM – Once the 2012 Plan/IMM is created, changes to the 2011 IMM are not automatically rolled into the 2012 IMM. The CCIP was modified to make the previous year's (e.g. 2011) IMM read only. The user will have access to view the 2011 IMM, but will receive a message that states the 2011 IMM is read only and IMM edits must occur in 2012. The user is provided with a link that allows for quick navigation to the 2012 IMM. This change only applies to the IMM and not the Plan. Plan changes for 2011 can continue to be made after the 2012 Plan is created.

2. IMM - The Team Narrative Evaluation of Plan Results and Processes now has five revised and one new question. This should be used at the end of the school year to evaluate the impact of the improvement process. It is critical to learning and understanding what changes in adult practices throughout the system resulted in changes in student performance.

3. DF – The table header in the "Print All" screen no longer appears until the report is generated. This improves the Print All function.
