Supplemental Educational Services (SES)
Quality of Provider Services
Rubric Rating Tool

Trained ODE representatives will observe selected SES providers during tutoring sessions. The SES provider quality of services (QoS) rubric rating tool will be used to determine a quality standard expectation of the provider services.

Review Process

Approximately 45 minutes prior to observing tutoring, the observer should conduct the brief interview with the director of the program using the questions on page 5 of this document. The purpose of the interview is for the evaluator to gather background information about the program. The information obtained should provide the context for observing tutoring. The focus should be on gathering information about the program rather than transcribing direct quotes.

When the tutoring session begins, the observer should start completing the Context and Activities form.

While observing the session, the reviewer should look for indicators of effective practice across the following three constructs:

1. A focus on learning is maintained.
2. Appropriate support is provided for students to be engaged in learning.
3. The learning environment is supportive of student learning, safety and well-being.

After documenting practices observed and collecting data on the entire tutoring session, observers should use the rubric's definitions and examples of effective practice, along with their best judgment, to complete the ratings.

The examples listed under each indicator are not inclusive of all examples and should not be used by the reviewer to help determine a single rating score for a particular indicator. Once the three construct tables are completed, the single rating score generated for each table must be placed into the summary table.

At the end of the review process, once all data have been collected and ratings completed for each construct, the reviewer must determine the overall quality of the session and provide a brief summary of the positive, high-quality aspects of the session and any concerns.

Ohio | Department of Education

Center for
School Improvement

Observation Rating of Constructs

The reviewer will rate each indicator on a six-point scale, with "0" representing the lowest level of effective practice found and "5" representing the highest level of effective practice found. The following definitions should be used when rating the provider:

Category	Score	Definition
Lowest	0	No evidence found to indicate the specific practice is occurring.
	1	Practice rarely found and is of poor quality.
	2	Insufficient level of practice; not enough in frequency or quality to improve the academic performance of the majority of students observed.
	3	Acceptable, but not remarkable, level of practice; sufficient in quality and frequency to improve the academic performance of a minimum of students observed.
	4	Above-average practice; good in quality and frequency to improve the academic performance of many of the students observed.
Highest	5	High-quality practice occurring frequently across majority of observations; convincing data that the effective practice is improving the academic performance of the majority of students observed.
No Data Collected		The reviewer did not collect evidence on this practice and therefore is unable to select a score for this particular exemplar. Selecting "No Data Collected" will not reduce the rating within the broader construct.

No decimals are permitted when selecting a score. The six-point scale assumes that the reviewer has searched out and collected enough data to respond to each of the indicators. In some instances, however, a reviewer may not have searched for data on a particular indicator and therefore, is unable to select a "0" to "5" score for that particular practice. In these instances, the reviewer should select "No Data Collected."

Note: There is a difference between a score of "0" compared to "No Data Collected "The "0' " scores are averaged into the overall rating for a particular construct (e.g., conducive learning environment) and will, therefore, reduce the overall rating for that area. The "No Data Collected" responses are not included in the average calculation for that particular construct and, therefore, will not reduce the provider's rating for that particular construct.

Promising Practices

The indicators and examples of effective practice on the following pages were informed by the following sources:

- *Community programs to promote youth development.* Eccles, J.S. & Gootman, J.A. (2002);
- *The Study of Promising After-School Programs: Descriptive Report of the Promising Programs*. Vandell, D; Reisner, E.; Brown, B.B.; Pierce, K.; Dadisman, K.; Pechman, E. (February 2004);
- *Study of Promising After-School Programs. Observation Manual for Site Verification Visits*. Policy Studies Associates, Inc., Wisconsin Center for Education Research (Spring 2005);
- *Out-of-School Time (OST) Observation Instrument*. Policy Studies Associates, Inc. (December 2005);
- *Tutoring. Educational Practices Series* - 5. Topping, Keith. (2000) Center on Innovation and Improvement; and

Provider Facility (Describe briefly.)

The Provider Facility is an old school building in Springfield that is now being utilized as a Community Center. The Community Center houses a day care, a teen center, and this SES tutoring service.

Please provide additional notes on p. 11: (Include information about exceptional or extended services provided to students and their families, regardless of funding source.)

clear form fields

Definitions for Activity Type and Knowledge/Skills

Test preparation/ study skills	Instruction and activities expressly designed to prepare students for standardized achievement tests or to teach them study skills. Activities may include practicing different types of test questions or taking practice tests.
Tutoring	Students work individually or in small groups with a tutor, who helps them work on a particular skill such as reading, math or English language skills.
Computer instruction	Using the computer to practice test-taking skills, practice academic skills or for an academic enrichment activity.
Other	Describe content areas/activities observed that cannot be categorized or grouped above.

Introductory Interview Items:

(Focus on contextual information that will enhance your understanding of the tutoring you are about to observe.)

1. How long have you been a provider of SES services? This is the fourth year of service

2. Describe the students you serve.
   a. How many students are you expecting in this session? 42 students
   b. Do you have non-SES students participating in tutoring? none

3. Describe what I/we should see in this session.
   We should see small group instruction with no more than 6 students in a group.

4. What else should I/we know about your program?
   There are 9 classrooms. The average classroom will have 4 students to 1 tutor.

5. How do you communicate feedback concerning student progress?
   a. What kind of feedback do you provide? Academic progress reports are sent monthly.
   b. How often do you provide feedback? The reports are issued on a monthly basis.
   c. What response do you get? Seldom are parent responses received.

Construct **Average Rating** 3

1. A focus on learning is maintained.

High Levels of Effective Practices	Score	Low Levels of Effective Practices
Target A. A clear learning goal is established for each child in the tutoring session. • Skill building activities are provided to students. • The tutor explains to the student what skills he or she is learning.	3	**Target** A. A clear learning goal is not established for each child in the tutoring session. • Activities do not build students' skills. • Activities are unfocused and not structured to develop a particular set of skills. • Activities are simply homework assistance.
Content B. The content, as presented by the tutors, is factually, procedurally and conceptually correct and accurate. • Materials are appropriate to the students' instructional level. • Learning is scaffolded for students' understanding.	3	**Content** B. The content, as presented by the tutors, is not factually, procedurally and conceptually correct and/or accurate. • Incorrect information is presented by the tutor(s). • Students' frustration is apparent and is a barrier to learning.
Activities C. The instructions for activities are clear and easily followed by students. • Tutors understand the activities and are prepared to support students in learning. • Students understand and follow instructions. • Tutors explain to students the reasons for the activity.	3	**Activities** C. The instructions are unclear and not easily followed by students. • Students may not know what they are supposed to be doing or why they are doing it.
Communication D. Tutor and student conversations are frequent and reciprocal. • Tutors respond to students' initiation of dialogue and show interest by commenting or asking questions. • Tutors initiate conversations with students. • Students discuss back and forth and offer their comments. • Tutors informally assess student learning.	4	**Communication** D. Tutor and student interactions are infrequent and one-sided. • Tutor does not converse or interact with students. • Tutor does not assist students. • Students do not participate in discussions. • Tutors do not informally assess student learning.
Instructional Techniques E. Tutors ask students "why, how and what if" questions as appropriate to the activity. • Tutors ask students questions that require extended responses. • Tutors ask students to explain their answers.	3	**Instructional Techniques** E. Tutors do not ask students "why, how and what if" questions as appropriate to the activity. • Tutors do not ask students questions that require extended responses. • Tutors do not ask students to explain their answers.

Please provide additional notes on p. 11:

Construct **Average Rating** 3

2. Appropriate support is provided for students to be engaged in learning.

High Levels of Effective Practices	Score	Low Levels of Effective Practices
Engagement Focus A. Students appear to be engaged, focused and interested in their activities. • Students are engaged in the focal activity and/or are using free time appropriately. • Students follow directions. • Groups of students are fully on-task and contributing during group activity.	3	**Engagement Focus** A. Students do not appear to be engaged, focused and interested in their activities. • Students are off-task or not attentive to the tutor or the activity (disrupting the lesson, blurting out, unseated and wandering about the room.) • Students are not engaged in the work provided to them; they may be completing the assigned work, but are not actively engaged in the work (daydreaming, taking longer than expected to complete the work, etc.). • Students appear bored or distracted.
Relationship/Support B. Tutors and other provider personnel respond to students in a warm, supportive manner. • Tutors use a positive tone of voice and offer encouragement. • Tutors offer specific suggestions to students for improving skills and performance, providing examples of what they like about the work in progress.	4	**Relationship/Support** B. Tutors and/or other provider personnel are flat or negative with students. • Tutors and/or other provider personnel appear bored, tired or distant. • Tutors and/or other provider personnel show disrespect for students.
Motivation/Encouragement C. Tutors and/or other provider personnel praise students' efforts and encourage students to continue working on building skills. • When a student struggles to master a skill, the tutor helps the student see it simply as a setback instead of as an inability. • The tutor encourages the student not to give up trying. • The tutor encourages a struggling student to try a new activity or approach.	3	**Motivation/Encouragement** C. Tutors and/or other provider personnel criticize the student's efforts and discourage the student from making more attempts to develop skills. • Tutors and/or other provider personnel blame the student's failure on inability. • Tutors and/or other provider personnel do not encourage further efforts to develop the skill. • Tutors and/or other provider personnel do not encourage students to try new approaches when struggling. • Tutors and/or other provider personnel do not encourage students to challenge themselves.
Progress/Review D. Tutors and/or other provider personnel give students the opportunity to review their progress regularly and to experience ongoing successes. • Questions such as, "What can you do now that you could not do before?" or "What did you learn today?" are asked.	2	**Progress/Review** D. Tutors and/or other provider personnel do not give students the time to reflect on their progress. • Student progress is not acknowledged. • The student is not encouraged to celebrate successes.

Please provide additional notes on p. 12:

Construct **Average Rating** 3

3. The learning environment is supportive of student learning, safety and well-being.

High Levels of Effective Practices	Score	Low Levels of Effective Practices
Effective Management A. The Provider uses effective techniques to control the environment. • Tutors communicate behavioral expectations and intervene constructively and calmly to address disruptive behavior by redirecting students and/or explaining why the behavior is unacceptable. • Tutor is aware of and addresses teasing, bullying or other conflicts between students. • Provider is aware of all situations in the room. • Distracted students are redirected or refocused. • Provider intervenes when appropriate and necessary.	3	**Effective Management** A. The provider uses moderate or heavy amounts of ineffectual control tactics. • There is evidence of yelling, shaming or disparagement of students by the tutor. • Tutors correct students publicly in ways that embarrass or belittle them. • Tutors ignore behavioral issues and/or student conflicts. • Tutors use hard or rough punishment. • Provider allows disruptive or inappropriate situations to get out of hand before intervening. • The techniques used by the provider to control the environment are unsuccessful.
Level of Control B. Activities and interactions are structured in such a way that levels of Provider control are appropriate. • Provider responds to students who ask for assistance. • Students are not over-controlled. • Provider demonstrates respect for students' autonomy and responsibility.	3	**Level of Control** B. Provider is highly over-controlling. • Little or no student discussion or involvement. • The provider does not encourage student spontaneity and creativity. • Activities are provider-directed.
Transitions C. Activity transitions are orderly and efficient. • The activity area is prepared and ready when students arrive. • Transition times between activities are minimal; students do not need to wait a long time for an activity to start. • Materials are accessible, functioning and efficiently dispersed to students. • There are enough materials to allow students to participate simultaneously in activities.	4	**Transitions** C. Transitions between activities are chaotic. • There are long waits between activities. • Materials are not functional or are not available in the necessary quantities. • Provider is not prepared for the activity. • Students may not know where they are supposed to be or where to go next.
Instructional Environment D. The environment contributes to instruction. • Group order is well-maintained through active student engagement in activities. • Noise levels, talking, movement and classroom interaction are consistent with and related to the instructional activities. • External distractions are minimized and do not impact learning. • Tutors and/or other provider personnel support each other (when multiple provider members are observed).	3	**Instructional Environment** D. The environment does not contribute to learning. • Students are out of control during transition, activities, or free time. • Students misbehave. • Students misuse materials. • Distractions outside the observed activity interfere with students' participation and/or experiences. • Provider members work at cross-purposes or give conflicting information.

Please provide additional notes on p. 12:

Summary Rating Table

The rating generated for each construct, which is located in the upper right-hand corner of the previous tables, must be written in the following summary table. The reviewer also must provide evidence/notes that justify why a particular rating was made.

Construct	Average Rating	Weight (Multiply by)	Final Score
1. A focus on learning is maintained.	3	5	15
2. Appropriate support is provided for students to be in engaged in learning.	3	3	9
3. The learning environment is supportive of student learning, safety and well-being.	3	2	6
Final Total Score (Sum of all scores)	X	X	30

Summary of the Overall Quality of the Session

At the end of the entire review process, once all data have been collected and ratings completed, the reviewer must summarize the overall quality of the provider session.

The reviewer must select the rating that best represents the overall quality of the provider session, based upon the criteria listed in the right column.

Overall Rating	Level of Quality and Degree of Concerns	Required Scoring Across the Three Constructs
☐ High Quality	The observer has no concerns regarding the quality of services. The provider is encouraged to share best practices.	Range 45-50
☐ Good Quality	The observer has minimal concerns regarding the quality of services. The provider is encouraged to continue implementing quality practices.	Range 35-44
☑ Acceptable Quality	The observer has few concerns regarding the quality of services. The provider is encouraged to consider improving the level of quality practices.	Range 28-34
☐ Limited Quality	The observer has several concerns regarding the quality of services. ODE will be contacting the provider to develop a plan of action to address concerns.	Range 18-27
☐ Poor Quality	The observer has serious concerns regarding the quality of services being provided. ODE will be contacting the provider to develop a plan of action to address concerns and for continued monitoring.	Range 17 or lower

Provide a brief summary of the positive, high-quality aspects of the session and any concerns (if applicable):

The small tutoring groups featuring student assignments according to grade level was noted as a strength to the tutoring program. Tutors and students demonstrated positive, reciprocal relationships. Students asked questions if assistance was needed and tutors dealt with apparent problems in a respectful manner.

The concern noted was the whole group instruction and whole group assignments given in most of the tutoring groups. Students were all assigned the same worksheets to complete, seemingly regardless to the student instructional need. Activity based instruction was rarely observed.

Notes from p. 4 – Context and activities observed.

Students served in the Inside Out program are from the Springfield City Schools. Prior to entering the program they are given the DORA (Diagnostic Online Reading Assessment) and the DOMA (Diagnostic Online Math Assessment) to gauge student reading and math learning needs. Additionally, the Inside Out provider administers a teacher developed assessment based on questions released from the Ohio Achievement Test. With information from these assessment tools a student learning plan is created for each student.

Inside Out provides tutoring for students in grades three through eight on Tuesday and Thursday from 4:00p.m. through 6:00p.m. Tutoring began on December 15, 2010 and will conclude on March 14, 2011. Students are provided transportation to the program as well as transportation home. Additionally, students receive a snack upon arrival and are fed a dinner at the conclusion of the tutoring session.

Tutors in the program have a variety of education and experiences. Three of the tutors are teachers in local school systems, one tutor has a Master's Degree, and the remaining tutors have Bachelor's Degrees in other fields.

Parents receive completed student work after each tutoring session and receive monthly academic progress reports. Parents sign students up for the program and complete the required attendance information.

Fewer students are in the program than previous years possibly due to the Springfield City Schools new SES program. However the Provider reported that the smaller tutoring groups has turned out to be a positive for the program.

Tutors have access to a grade level binder with progressive skills for each subject. Additionally, tutors have access to an on line computer worksheet provider (Ed Helper) to copy student worksheets.

Notes from p. 6 – A focus on learning is maintained.

A folder with work is prepared for each student prior to the beginning of the tutoring session. Transitions between activities generally required little time due to this advance materials preparation. Students receive instruction in both reading and math during the two hour tutoring block.

In most groups the student assignments were the same for all members of the assigned group, thus differentiation to meet the needs of the individual student was not apparent. Similarly, it was difficult to know if the skills being taught were appropriate to student needs or representative of grade level (sometimes below grade level) skills needed for some of the students. Examples of work that may not have challenged all students in the group are the teaching of analog clocks to third grade students, the teaching of place value to all students in a third grade group, and the dice roll subtraction review for third grade students.

One stretching instructional activity was observed in one third grade classroom where students were required to figure perimeter together as a group, then write the answer in short answer format on individual worksheets.

Communication between tutors and students was positive and reciprocal. Students understood the instructional assignments and felt free to ask questions as needed.

Students in the seventh and eighth grade classroom seemed to be challenged by the reading assignment given and requested and received tutor support to complete the assignment.

Notes from p. 7 – Appropriate support is provided for students to be engaged in learning.

Students were tutored in small groups of three throughout the program, with the exception being the junior high group of six students to one tutor. These small groups allowed the relationship/support piece to be a strength for the program. Tutors were able to utilize a positive, supportive approach to keep students involved with the task at hand. Praise was observed and given to students through general comments such as 'great job' to specific comments about particular work completion.

Students in the tutoring groups were generally compliant with the assignments as opposed to fully engaged with instruction. One student was noted off task in a group of four 5th grade students. He was drawing on the back of his worksheet and avoiding the tutor assignment. His off task time was limited due to the small size of the instructional group. The junior high group exhibited a bit more resistance regarding the work assignments, but the tutor displayed a positive, encouraging manner and was able to obtain individual compliance to the assignment.

Progress review was not noted as a strength for this program. While students exhibited a sense of accomplishment with the completion of a paper, and praise was given for a job well done, review of academic skills was not specifically noted.

Notes from p. 8 – The learning environment is supportive of student learning, safety and well-being.

Students are assigned by grade level in small groups to a tutor. Each tutoring group has a private space in either a classroom, conference room or office area for tutoring. The setting was an old school building turned into a Community Center. A day care and a teen center were also housed in the building. Distractions to the tutoring assignments were minimal. The front door to the building was not locked and while staff members were nearby attending to program needs, it did not seem that staff was assigned to monitor the door.

In each classroom behavior expectations and classroom rules were posted. Generally, effective management was noted and students followed directions as given. Conflicts were apparent between a few of the six students assigned to the junior high classroom. While the conflict was a disruption to the learning environment, the tutor handled the problem in a positive, respectful manner towards the students involved.

The individual room assignments did not allow support to be noted between tutors. The Provider interview session noted that two pastors are available for student counseling if the need would arise, however that was not observed during this scheduled visit.
