Supplemental Educational Services (SES)
Quality of Provider Services
Rubric Rating Tool

Trained ODE representatives will observe selected SES providers during tutoring sessions. The SES provider quality of services (QoS) rubric rating tool will be used to determine a quality standard expectation of the provider services.

Review Process

Approximately 45 minutes prior to observing tutoring, the observer should conduct the brief interview with the director of the program using the questions on page 5 of this document. The purpose of the interview is for the evaluator to gather background information about the program. The information obtained should provide the context for observing tutoring. The focus should be on gathering information about the program rather than transcribing direct quotes.

When the tutoring session begins, the observer should start completing the Context and Activities form.

While observing the session, the reviewer should look for indicators of effective practice across the following three constructs:

1. A focus on learning is maintained.
2. Appropriate support is provided for students to be engaged in learning.
3. The learning environment is supportive of student learning, safety and well-being.

After documenting practices observed and collecting data on the entire tutoring session, observers should use the rubric's definitions and examples of effective practice, along with their best judgment, to complete the ratings.

The examples listed under each indicator are not inclusive of all examples and should not be used by the reviewer to help determine a single rating score for a particular indicator. Once the three construct tables are completed, the single rating score generated for each table must be placed into the summary table.

At the end of the review process, once all data have been collected and ratings completed for each construct, the reviewer must determine the overall quality of the session and provide a brief summary of the positive, high-quality aspects of the session and any concerns.

Ohio | Department of Education

Center for
School Improvement

Observation Rating of Constructs

The reviewer will rate each indicator on a six-point scale, with "0" representing the lowest level of effective practice found and "5" representing the highest level of effective practice found. The following definitions should be used when rating the provider:

Category	Score	Definition
Lowest	0	No evidence found to indicate the specific practice is occurring.
	1	Practice rarely found and is of poor quality.
	2	Insufficient level of practice; not enough in frequency or quality to improve the academic performance of the majority of students observed.
	3	Acceptable, but not remarkable, level of practice; sufficient in quality and frequency to improve the academic performance of a minimum of students observed.
	4	Above-average practice; good in quality and frequency to improve the academic performance of many of the students observed.
Highest	5	High-quality practice occurring frequently across majority of observations; convincing data that the effective practice is improving the academic performance of the majority of students observed.
No Data Collected		The reviewer did not collect evidence on this practice and therefore is unable to select a score for this particular exemplar. Selecting "No Data Collected" will not reduce the rating within the broader construct.

No decimals are permitted when selecting a score. The six-point scale assumes that the reviewer has searched out and collected enough data to respond to each of the indicators. In some instances, however, a reviewer may not have searched for data on a particular indicator and therefore, is unable to select a "0" to "5" score for that particular practice. In these instances, the reviewer should select "No Data Collected."

Note: There is a difference between a score of "0" compared to "No Data Collected "The "0' " scores are averaged into the overall rating for a particular construct (e.g., conducive learning environment) and will, therefore, reduce the overall rating for that area. The "No Data Collected" responses are not included in the average calculation for that particular construct and, therefore, will not reduce the provider's rating for that particular construct.

Promising Practices

The indicators and examples of effective practice on the following pages were informed by the following sources:

- *Community programs to promote youth development.* Eccles, J.S. & Gootman, J.A. (2002);
- *The Study of Promising After-School Programs: Descriptive Report of the Promising Programs*. Vandell, D; Reisner, E.; Brown, B.B.; Pierce, K.; Dadisman, K.; Pechman, E. (February 2004);
- *Study of Promising After-School Programs. Observation Manual for Site Verification Visits*. Policy Studies Associates, Inc., Wisconsin Center for Education Research (Spring 2005);
- *Out-of-School Time (OST) Observation Instrument*. Policy Studies Associates, Inc. (December 2005);

Provider Facility (Describe briefly.)

Facility was the 2nd floor of Bright Star Kiddie Tots Nursery School. The session was held in a large room covering the entire floor. Tables with chairs were set up in one section of the room, in another section there were a few school desks, a book case, and sleeping mats, another section was an open space area, and there was also a separate computer room.

Please provide additional notes on p. 11: (Include information about exceptional or extended services provided to students and their families, regardless of funding source.)

clear form fields

Definitions for Activity Type and Knowledge/Skills

Test preparation/ study skills	Instruction and activities expressly designed to prepare students for standardized achievement tests or to teach them study skills. Activities may include practicing different types of test questions or taking practice tests.
Tutoring	Students work individually or in small groups with a tutor, who helps them work on a particular skill such as reading, math or English language skills.
Computer instruction	Using the computer to practice test-taking skills, practice academic skills or for an academic enrichment activity.
Other	Describe content areas/activities observed that cannot be categorized or grouped above.

Introductory Interview Items:

(Focus on contextual information that will enhance your understanding of the tutoring you are about to observe.)

1. How long have you been a provider of SES services? 4 years This is the first year at this site.

2. Describe the students you serve.
   a. How many students are you expecting in this session? First session(3-4)--8 students Second
   b. Do you have non-SES students participating in tutoring? 2 non-SES students in the first session 8

3. Describe what I/we should see in this session.
   Students will be given instruction in reading using specific activities as well as enrichment.

4. What else should I/we know about your program?
   It is an urban setting. Work is done in groups of 8 or less. Pre-testing for reading/math

5. How do you communicate feedback concerning student progress?
   a. What kind of feedback do you provide? Monthly progress reports, letters, conferences for parents
   b. How often do you provide feedback? Monthly or when/if parents pick up children
   c. What response do you get? Sometimes verbal responses or parents sign and send report back.

Construct **Average Rating** 0

1. A focus on learning is maintained.

High Levels of Effective Practices	Score	Low Levels of Effective Practices
Target A. A clear learning goal is established for each child in the tutoring session. • Skill building activities are provided to students. • The tutor explains to the student what skills he or she is learning.	0	**Target** A. A clear learning goal is not established for each child in the tutoring session. • Activities do not build students' skills. • Activities are unfocused and not structured to develop a particular set of skills. • Activities are simply homework assistance.
Content B. The content, as presented by the tutors, is factually, procedurally and conceptually correct and accurate. • Materials are appropriate to the students' instructional level. • Learning is scaffolded for students' understanding.	0	**Content** B. The content, as presented by the tutors, is not factually, procedurally and conceptually correct and/or accurate. • Incorrect information is presented by the tutor(s). • Students' frustration is apparent and is a barrier to learning.
Activities C. The instructions for activities are clear and easily followed by students. • Tutors understand the activities and are prepared to support students in learning. • Students understand and follow instructions. • Tutors explain to students the reasons for the activity.	0	**Activities** C. The instructions are unclear and not easily followed by students. • Students may not know what they are supposed to be doing or why they are doing it.
Communication D. Tutor and student conversations are frequent and reciprocal. • Tutors respond to students' initiation of dialogue and show interest by commenting or asking questions. • Tutors initiate conversations with students. • Students discuss back and forth and offer their comments. • Tutors informally assess student learning.	1	**Communication** D. Tutor and student interactions are infrequent and one-sided. • Tutor does not converse or interact with students. • Tutor does not assist students. • Students do not participate in discussions. • Tutors do not informally assess student learning.
Instructional Techniques E. Tutors ask students "why, how and what if" questions as appropriate to the activity. • Tutors ask students questions that require extended responses. • Tutors ask students to explain their answers.	0	**Instructional Techniques** E. Tutors do not ask students "why, how and what if" questions as appropriate to the activity. • Tutors do not ask students questions that require extended responses. • Tutors do not ask students to explain their answers.

Please provide additional notes on p. 11:

Construct **Average Rating** 0

2. Appropriate support is provided for students to be engaged in learning.

High Levels of Effective Practices	Score	Low Levels of Effective Practices
Engagement Focus A. Students appear to be engaged, focused and interested in their activities. • Students are engaged in the focal activity and/or are using free time appropriately. • Students follow directions. • Groups of students are fully on-task and contributing during group activity.	1	**Engagement Focus** A. Students do not appear to be engaged, focused and interested in their activities. • Students are off-task or not attentive to the tutor or the activity (disrupting the lesson, blurting out, unseated and wandering about the room.) • Students are not engaged in the work provided to them; they may be completing the assigned work, but are not actively engaged in the work (daydreaming, taking longer than expected to complete the work, etc.). • Students appear bored or distracted.
Relationship/Support B. Tutors and other provider personnel respond to students in a warm, supportive manner. • Tutors use a positive tone of voice and offer encouragement. • Tutors offer specific suggestions to students for improving skills and performance, providing examples of what they like about the work in progress.	0	**Relationship/Support** B. Tutors and/or other provider personnel are flat or negative with students. • Tutors and/or other provider personnel appear bored, tired or distant. • Tutors and/or other provider personnel show disrespect for students.
Motivation/Encouragement C. Tutors and/or other provider personnel praise students' efforts and encourage students to continue working on building skills. • When a student struggles to master a skill, the tutor helps the student see it simply as a setback instead of as an inability. • The tutor encourages the student not to give up trying. • The tutor encourages a struggling student to try a new activity or approach.	0	**Motivation/Encouragement** C. Tutors and/or other provider personnel criticize the student's efforts and discourage the student from making more attempts to develop skills. • Tutors and/or other provider personnel blame the student's failure on inability. • Tutors and/or other provider personnel do not encourage further efforts to develop the skill. • Tutors and/or other provider personnel do not encourage students to try new approaches when struggling. • Tutors and/or other provider personnel do not encourage students to challenge themselves.
Progress/Review D. Tutors and/or other provider personnel give students the opportunity to review their progress regularly and to experience ongoing successes. • Questions such as, "What can you do now that you could not do before?" or "What did you learn today?" are asked.	0	**Progress/Review** D. Tutors and/or other provider personnel do not give students the time to reflect on their progress. • Student progress is not acknowledged. • The student is not encouraged to celebrate successes.

Please provide additional notes on p. 12:

Construct **Average Rating** 1

3. The learning environment is supportive of student learning, safety and well-being.

High Levels of Effective Practices	Score	Low Levels of Effective Practices
Effective Management A. The Provider uses effective techniques to control the environment. • Tutors communicate behavioral expectations and intervene constructively and calmly to address disruptive behavior by redirecting students and/or explaining why the behavior is unacceptable. • Tutor is aware of and addresses teasing, bullying or other conflicts between students. • Provider is aware of all situations in the room. • Distracted students are redirected or refocused. • Provider intervenes when appropriate and necessary.	1	**Effective Management** A. The provider uses moderate or heavy amounts of ineffectual control tactics. • There is evidence of yelling, shaming or disparagement of students by the tutor. • Tutors correct students publicly in ways that embarrass or belittle them. • Tutors ignore behavioral issues and/or student conflicts. • Tutors use hard or rough punishment. • Provider allows disruptive or inappropriate situations to get out of hand before intervening. • The techniques used by the provider to control the environment are unsuccessful.
Level of Control B. Activities and interactions are structured in such a way that levels of Provider control are appropriate. • Provider responds to students who ask for assistance. • Students are not over-controlled. • Provider demonstrates respect for students' autonomy and responsibility.	0	**Level of Control** B. Provider is highly over-controlling. • Little or no student discussion or involvement. • The provider does not encourage student spontaneity and creativity. • Activities are provider-directed.
Transitions C. Activity transitions are orderly and efficient. • The activity area is prepared and ready when students arrive. • Transition times between activities are minimal; students do not need to wait a long time for an activity to start. • Materials are accessible, functioning and efficiently dispersed to students. • There are enough materials to allow students to participate simultaneously in activities.	0	**Transitions** C. Transitions between activities are chaotic. • There are long waits between activities. • Materials are not functional or are not available in the necessary quantities. • Provider is not prepared for the activity. • Students may not know where they are supposed to be or where to go next.
Instructional Environment D. The environment contributes to instruction. • Group order is well-maintained through active student engagement in activities. • Noise levels, talking, movement and classroom interaction are consistent with and related to the instructional activities. • External distractions are minimized and do not impact learning. • Tutors and/or other provider personnel support each other (when multiple provider members are observed).	1	**Instructional Environment** D. The environment does not contribute to learning. • Students are out of control during transition, activities, or free time. • Students misbehave. • Students misuse materials. • Distractions outside the observed activity interfere with students' participation and/or experiences. • Provider members work at cross-purposes or give conflicting information.

Please provide additional notes on p. 12:

Summary Rating Table

The rating generated for each construct, which is located in the upper right-hand corner of the previous tables, must be written in the following summary table. The reviewer also must provide evidence/notes that justify why a particular rating was made.

Construct	Average Rating	Weight (Multiply by)	Final Score
1. A focus on learning is maintained.	0	5	0
2. Appropriate support is provided for students to be in engaged in learning.	0	3	0
3. The learning environment is supportive of student learning, safety and well-being.	1	2	2
Final Total Score (Sum of all scores)	X	X	2

Summary of the Overall Quality of the Session

At the end of the entire review process, once all data have been collected and ratings completed, the reviewer must summarize the overall quality of the provider session.

The reviewer must select the rating that best represents the overall quality of the provider session, based upon the criteria listed in the right column.

Overall Rating	Level of Quality and Degree of Concerns	Required Scoring Across the Three Constructs
☐ High Quality	The observer has no concerns regarding the quality of services. The provider is encouraged to share best practices.	Range 45-50
☐ Good Quality	The observer has minimal concerns regarding the quality of services. The provider is encouraged to continue implementing quality practices.	Range 35-44
☐ Acceptable Quality	The observer has few concerns regarding the quality of services. The provider is encouraged to consider improving the level of quality practices.	Range 28-34
☐ Limited Quality	The observer has several concerns regarding the quality of services. ODE will be contacting the provider to develop a plan of action to address concerns.	Range 18-27
☑ Poor Quality	The observer has serious concerns regarding the quality of services being provided. ODE will be contacting the provider to develop a plan of action to address concerns and for continued monitoring.	Range 17 or lower

Provide a brief summary of the positive, high-quality aspects of the session and any concerns (if applicable):

POSITIVE ASPECTS: The environment was safe, secure, and clean. The students related well to the observers. A computer room was available. Students were eager to learn.
CONCERNS: This program DID NOT provide a sustained focus on learning, appropriate support for students to be engaged in learning, and and an environment supportive of student learning. Program personnel did not provide appropriate support for students willing to be engaged in learning. Following is a list of concerns:
1. Skill building activities were not provided to students.
2. No activities were formally introduced or given to the sudents. Most activities were homework done individually by the student. Students were not directed or informed of what they should be doing or what they should do next.
3. Time management was poor/loose organizational structure.
4. Instruction was limited to paper and pencil, coloring books, one 5 minute reading period.
5. Distracted/off task students were not refocused or engaged.

Notes from p. 4 – Context and activities observed.

Director stated that the program was "non-contracted" which gave her more flexibility in material choice and that they did not use "canned plans".

Students were not grouped by ability, grades, or instructional levels. Individual learning plans were not on site/ weekly learning plans mentioned by director were not on site. Pairs of students read together for a 5 minute period(Drop What You Are Doing and Grab a Book).

Tutors acted as "baby-sittters" with no formal structure or learning focus. No planned activities.

Director stated Kaplan Reading and Saxon Math were used but there was no evidence of any materials from these programs.

Phonemic Awareness Assessment for K-3 and Balanced Reading for 4-6 used as a pre-test. No results available to review.

One student threw something at one observer and the other observer was hit with a ruler.

6 computers were available(2 not working) for use in a separate room but not used.

Director/tutor stated the schedule is : 20-30 minutes on paired student homework, spelling test preparation, and no OAA test preparation during each session.

Notes from p. 6 – A focus on learning is maintained.

No groups of students were formed. Several pairs of students appeared to be helping one another. One tutor assisted one student with homework worksheet for about 5 minutes.

No skill building or structured activites were apparent. One student made a bed with a floor mat and attempted to take a nap twice.

Tutor played piano to begin 5 minute reading session which was chaotic while students selected books for "pair reading". Pairing for the reading session was student choice. 4th grader was reading dinosaur book to a 3rd grader who was not listening. Neither of the two tutors ever came to check on this pair of students. No tutor monitored the 5 minute reading session. One student hid behind a puppet stage during this time. 4th grader told observer it was "play day".

Several students sitting at table coloring Care Bear pictures.

Many students not supervised or given direction. One tutor heard asking students "What's going on?"

Notes from p. 7 – Appropriate support is provided for students to be engaged in learning.

One pair of students during the reading session had a non-reader who was not given support while one tutor sat and listened to them.

Students not formally paired for the reading by ability or instructional level. One K or1st grade student ran back and forth getting big books after looking at the pictures with their partner. There was no interaction with a tutor.

One tutor had two students read site words which were posted on a column. One student told tutor she did not know the words. Tutor skipped over those words.

Students were allowed to misbehave due to no structure, procedure, or routines.

No evidence of Higher Ordere Thinking Skills. Limited praise from tutors.

Very loose supervision.

4th grader sitting at table writing sentences for homework and not given any assistance.

Notes from p. 8 – The learning environment is supportive of student learning, safety and well-being.

When tutor found a student that did not do homework or had none, gave them a random worksheet.

Tutor made announcement about holiday pictures and closing dates.

Students moving around from table to table with no structure.

Four students were working on something at a table by themselves. Students are on their own and limited/no supervision. Tutors wandered around the room. One tutor attempted to correct a student who was writing on a chair, called the student by the wrong name, and was ignored.

One female student sitting under the piano bench.

When second session group arrived they were given a snack and joined the other students. Many were playing with toys, talking, and singing. No adult redirected them.

Two students from the second group came over and introduced themselves to the observers and welcomed the observers. They then sat down to do their homework with no tutor assistance.

Well lit room with tables set up for group work.
