Supplemental Educational Services (SES)
Quality of Provider Services
Rubric Rating Tool

Trained ODE representatives will observe selected SES providers during tutoring sessions. The SES provider quality of services (QoS) rubric rating tool will be used to determine a quality standard expectation of the provider services.

Review Process

Approximately 45 minutes prior to observing tutoring, the observer should conduct the brief interview with the director of the program using the questions on page 5 of this document. The purpose of the interview is for the evaluator to gather background information about the program. The information obtained should provide the context for observing tutoring. The focus should be on gathering information about the program rather than transcribing direct quotes.

When the tutoring session begins, the observer should start completing the Context and Activities form.

While observing the session, the reviewer should look for indicators of effective practice across the following three constructs:

1. A focus on learning is maintained.
2. Appropriate support is provided for students to be engaged in learning.
3. The learning environment is supportive of student learning, safety and well-being.

After documenting practices observed and collecting data on the entire tutoring session, observers should use the rubric's definitions and examples of effective practice, along with their best judgment, to complete the ratings.

The examples listed under each indicator are not inclusive of all examples and should not be used by the reviewer to help determine a single rating score for a particular indicator. Once the three construct tables are completed, the single rating score generated for each table must be placed into the summary table.

At the end of the review process, once all data have been collected and ratings completed for each construct, the reviewer must determine the overall quality of the session and provide a brief summary of the positive, high-quality aspects of the session and any concerns.

Ohio | Department of Education

Center for
School Improvement

Observation Rating of Constructs

The reviewer will rate each indicator on a six-point scale, with "0" representing the lowest level of effective practice found and "5" representing the highest level of effective practice found. The following definitions should be used when rating the provider:

Category	Score	Definition
Lowest	0	No evidence found to indicate the specific practice is occurring.
	1	Practice rarely found and is of poor quality.
	2	Insufficient level of practice; not enough in frequency or quality to improve the academic performance of the majority of students observed.
	3	Acceptable, but not remarkable, level of practice; sufficient in quality and frequency to improve the academic performance of a minimum of students observed.
	4	Above-average practice; good in quality and frequency to improve the academic performance of many of the students observed.
Highest	5	High-quality practice occurring frequently across majority of observations; convincing data that the effective practice is improving the academic performance of the majority of students observed.
No Data Collected		The reviewer did not collect evidence on this practice and therefore is unable to select a score for this particular exemplar. Selecting "No Data Collected" will not reduce the rating within the broader construct.

No decimals are permitted when selecting a score. The six-point scale assumes that the reviewer has searched out and collected enough data to respond to each of the indicators. In some instances, however, a reviewer may not have searched for data on a particular indicator and therefore, is unable to select a "0" to "5" score for that particular practice. In these instances, the reviewer should select "No Data Collected."

Note: There is a difference between a score of "0" compared to "No Data Collected "The "0' " scores are averaged into the overall rating for a particular construct (e.g., conducive learning environment) and will, therefore, reduce the overall rating for that area. The "No Data Collected" responses are not included in the average calculation for that particular construct and, therefore, will not reduce the provider's rating for that particular construct.

Promising Practices

The indicators and examples of effective practice on the following pages were informed by the following sources:

- *Community programs to promote youth development.* Eccles, J.S. & Gootman, J.A. (2002);
- *The Study of Promising After-School Programs: Descriptive Report of the Promising Programs*. Vandell, D; Reisner, E.; Brown, B.B.; Pierce, K.; Dadisman, K.; Pechman, E. (February 2004);
- *Study of Promising After-School Programs. Observation Manual for Site Verification Visits*. Policy Studies Associates, Inc., Wisconsin Center for Education Research (Spring 2005);
- *Out-of-School Time (OST) Observation Instrument*. Policy Studies Associates, Inc. (December 2005);
- *Tutoring. Educational Practices Series* - 5. Topping, Keith. (2000) Center on Innovation and Improvement; and

Context and Activities Observed

SES Provider

Date: 1/19/11 Tree of Knowledge Learning Center

Length of the Tutoring Session(s): 1 hour

Name of Observer: Linda M. Swinko, Bob Cyders

Number of People Observed

of Students Served by the Program: 29(all home tutored)

# of Students in Attendance: 1(normally home tutored)

# of Students Observed: 1

# of Adults Observed 1

Academic Role: 1

Non-Academic Role:

Grade Levels Observed (Specify levels within the grade span and note Tutor to Student ratio)

Elementary School

T:S

Middle School

T:S

High School 10th grade learning disabled

T:S 1:1

Activity Type (Estimate the percentage of time spent in each activity)

Tutoring 100 %

Study skills/Test preparation 0 %

Computer instruction 0 %

Knowledge / Skill Areas (Check all that apply)

- ☐ Math/Numeric
- ☑ Reading/Language Arts
- ☐ Other Academic Area:

Type of Space (Check)

- ☐ School Classroom
- ☐ Computer Lab
- ☐ School Library
- ☐ Public Library
- ☐ Home

Materials Used (Check all that apply)

- ☐ Computers
- ☐ Writing Materials
- ☐ Textbooks and Workbooks
- ☐ Research Books
- ☑ Other:

Provider Facility (Describe briefly.)

Tutoring normally takes place in the child's home. Provider made arrangements for QoS observers to do the observation at the provider's office in a meeting room.

Please provide additional notes on p. 11: (Include information about exceptional or extended services provided to students and their families, regardless of funding source.)

clear form fields

Definitions for Activity Type and Knowledge/Skills

Test preparation/ study skills	Instruction and activities expressly designed to prepare students for standardized achievement tests or to teach them study skills. Activities may include practicing different types of test questions or taking practice tests.
Tutoring	Students work individually or in small groups with a tutor, who helps them work on a particular skill such as reading, math or English language skills.
Computer instruction	Using the computer to practice test-taking skills, practice academic skills or for an academic enrichment activity.
Other	Describe content areas/activities observed that cannot be categorized or grouped above.

Introductory Interview Items:

(Focus on contextual information that will enhance your understanding of the tutoring you are about to observe.)

1. How long have you been a provider of SES services? As director of this program 4-5 years.

2. Describe the students you serve.
   a. How many students are you expecting in this session? 1 special needs child who is normally tutored
   b. Do you have non-SES students participating in tutoring? yes

3. Describe what I/we should see in this session.
   One-on-one interaction with activities and motivation for child to do his best.

4. What else should I/we know about your program?
   Our influence on children turns them around. Tutors are mentors.

5. How do you communicate feedback concerning student progress? Conversations at each session since
   a. What kind of feedback do you provide? Monthly progress reports to parents/school;letters to parents;
   b. How often do you provide feedback? weekly;monthly;as needed
   c. What response do you get? Parents are generally very happy;limited teacher response

Construct **Average Rating** 4

1. A focus on learning is maintained.

High Levels of Effective Practices	Score	Low Levels of Effective Practices
Target A. A clear learning goal is established for each child in the tutoring session. • Skill building activities are provided to students. • The tutor explains to the student what skills he or she is learning.	4	**Target** A. A clear learning goal is not established for each child in the tutoring session. • Activities do not build students' skills. • Activities are unfocused and not structured to develop a particular set of skills. • Activities are simply homework assistance.
Content B. The content, as presented by the tutors, is factually, procedurally and conceptually correct and accurate. • Materials are appropriate to the students' instructional level. • Learning is scaffolded for students' understanding.	3	**Content** B. The content, as presented by the tutors, is not factually, procedurally and conceptually correct and/or accurate. • Incorrect information is presented by the tutor(s). • Students' frustration is apparent and is a barrier to learning.
Activities C. The instructions for activities are clear and easily followed by students. • Tutors understand the activities and are prepared to support students in learning. • Students understand and follow instructions. • Tutors explain to students the reasons for the activity.	4	**Activities** C. The instructions are unclear and not easily followed by students. • Students may not know what they are supposed to be doing or why they are doing it.
Communication D. Tutor and student conversations are frequent and reciprocal. • Tutors respond to students' initiation of dialogue and show interest by commenting or asking questions. • Tutors initiate conversations with students. • Students discuss back and forth and offer their comments. • Tutors informally assess student learning.	4	**Communication** D. Tutor and student interactions are infrequent and one-sided. • Tutor does not converse or interact with students. • Tutor does not assist students. • Students do not participate in discussions. • Tutors do not informally assess student learning.
Instructional Techniques E. Tutors ask students "why, how and what if" questions as appropriate to the activity. • Tutors ask students questions that require extended responses. • Tutors ask students to explain their answers.	3	**Instructional Techniques** E. Tutors do not ask students "why, how and what if" questions as appropriate to the activity. • Tutors do not ask students questions that require extended responses. • Tutors do not ask students to explain their answers.

Please provide additional notes on p. 11:

Construct **Average Rating** 4

2. Appropriate support is provided for students to be engaged in learning.

High Levels of Effective Practices	Score	Low Levels of Effective Practices
Engagement Focus A. Students appear to be engaged, focused and interested in their activities. • Students are engaged in the focal activity and/or are using free time appropriately. • Students follow directions. • Groups of students are fully on-task and contributing during group activity.	5	**Engagement Focus** A. Students do not appear to be engaged, focused and interested in their activities. • Students are off-task or not attentive to the tutor or the activity (disrupting the lesson, blurting out, unseated and wandering about the room.) • Students are not engaged in the work provided to them; they may be completing the assigned work, but are not actively engaged in the work (daydreaming, taking longer than expected to complete the work, etc.). • Students appear bored or distracted.
Relationship/Support B. Tutors and other provider personnel respond to students in a warm, supportive manner. • Tutors use a positive tone of voice and offer encouragement. • Tutors offer specific suggestions to students for improving skills and performance, providing examples of what they like about the work in progress.	5	**Relationship/Support** B. Tutors and/or other provider personnel are flat or negative with students. • Tutors and/or other provider personnel appear bored, tired or distant. • Tutors and/or other provider personnel show disrespect for students.
Motivation/Encouragement C. Tutors and/or other provider personnel praise students' efforts and encourage students to continue working on building skills. • When a student struggles to master a skill, the tutor helps the student see it simply as a setback instead of as an inability. • The tutor encourages the student not to give up trying. • The tutor encourages a struggling student to try a new activity or approach.	4	**Motivation/Encouragement** C. Tutors and/or other provider personnel criticize the student's efforts and discourage the student from making more attempts to develop skills. • Tutors and/or other provider personnel blame the student's failure on inability. • Tutors and/or other provider personnel do not encourage further efforts to develop the skill. • Tutors and/or other provider personnel do not encourage students to try new approaches when struggling. • Tutors and/or other provider personnel do not encourage students to challenge themselves.
Progress/Review D. Tutors and/or other provider personnel give students the opportunity to review their progress regularly and to experience ongoing successes. • Questions such as, "What can you do now that you could not do before?" or "What did you learn today?" are asked.	0	**Progress/Review** D. Tutors and/or other provider personnel do not give students the time to reflect on their progress. • Student progress is not acknowledged. • The student is not encouraged to celebrate successes.

Please provide additional notes on p. 12:

Construct **Average Rating** 4

3. The learning environment is supportive of student learning, safety and well-being.

High Levels of Effective Practices	Score	Low Levels of Effective Practices
Effective Management A. The Provider uses effective techniques to control the environment. • Tutors communicate behavioral expectations and intervene constructively and calmly to address disruptive behavior by redirecting students and/or explaining why the behavior is unacceptable. • Tutor is aware of and addresses teasing, bullying or other conflicts between students. • Provider is aware of all situations in the room. • Distracted students are redirected or refocused. • Provider intervenes when appropriate and necessary.	4	**Effective Management** A. The provider uses moderate or heavy amounts of ineffectual control tactics. • There is evidence of yelling, shaming or disparagement of students by the tutor. • Tutors correct students publicly in ways that embarrass or belittle them. • Tutors ignore behavioral issues and/or student conflicts. • Tutors use hard or rough punishment. • Provider allows disruptive or inappropriate situations to get out of hand before intervening. • The techniques used by the provider to control the environment are unsuccessful.
Level of Control B. Activities and interactions are structured in such a way that levels of Provider control are appropriate. • Provider responds to students who ask for assistance. • Students are not over-controlled. • Provider demonstrates respect for students' autonomy and responsibility.	4	**Level of Control** B. Provider is highly over-controlling. • Little or no student discussion or involvement. • The provider does not encourage student spontaneity and creativity. • Activities are provider-directed.
Transitions C. Activity transitions are orderly and efficient. • The activity area is prepared and ready when students arrive. • Transition times between activities are minimal; students do not need to wait a long time for an activity to start. • Materials are accessible, functioning and efficiently dispersed to students. • There are enough materials to allow students to participate simultaneously in activities.	5	**Transitions** C. Transitions between activities are chaotic. • There are long waits between activities. • Materials are not functional or are not available in the necessary quantities. • Provider is not prepared for the activity. • Students may not know where they are supposed to be or where to go next.
Instructional Environment D. The environment contributes to instruction. • Group order is well-maintained through active student engagement in activities. • Noise levels, talking, movement and classroom interaction are consistent with and related to the instructional activities. • External distractions are minimized and do not impact learning. • Tutors and/or other provider personnel support each other (when multiple provider members are observed).	4	**Instructional Environment** D. The environment does not contribute to learning. • Students are out of control during transition, activities, or free time. • Students misbehave. • Students misuse materials. • Distractions outside the observed activity interfere with students' participation and/or experiences. • Provider members work at cross-purposes or give conflicting information.

Please provide additional notes on p. 12:

Summary Rating Table

The rating generated for each construct, which is located in the upper right-hand corner of the previous tables, must be written in the following summary table. The reviewer also must provide evidence/notes that justify why a particular rating was made.

Construct	Average Rating	Weight (Multiply by)	Final Score
1. A focus on learning is maintained.	4	5	20
2. Appropriate support is provided for students to be in engaged in learning.	4	3	12
3. The learning environment is supportive of student learning, safety and well-being.	4	2	8
Final Total Score (Sum of all scores)	X	X	40

Summary of the Overall Quality of the Session

At the end of the entire review process, once all data have been collected and ratings completed, the reviewer must summarize the overall quality of the provider session.

The reviewer must select the rating that best represents the overall quality of the provider session, based upon the criteria listed in the right column.

Overall Rating	Level of Quality and Degree of Concerns	Required Scoring Across the Three Constructs
☐ High Quality	The observer has no concerns regarding the quality of services. The provider is encouraged to share best practices.	Range 45-50
☑ Good Quality	The observer has minimal concerns regarding the quality of services. The provider is encouraged to continue implementing quality practices.	Range 35-44
☐ Acceptable Quality	The observer has few concerns regarding the quality of services. The provider is encouraged to consider improving the level of quality practices.	Range 28-34
☐ Limited Quality	The observer has several concerns regarding the quality of services. ODE will be contacting the provider to develop a plan of action to address concerns.	Range 18-27
☐ Poor Quality	The observer has serious concerns regarding the quality of services being provided. ODE will be contacting the provider to develop a plan of action to address concerns and for continued monitoring.	Range 17 or lower

Provide a brief summary of the positive, high-quality aspects of the session and any concerns (if applicable):

POSITIVES
1. Child provided a variety of activities. Tutor told child purpose of each activity prior to working on it.
2. Tutor gave "real life" examples in explaining concepts; used computer to clarify definitions.
3. Positive rapport/respect between tutor/child. Conversations were two-way;child asked questions when he did not understand.
4. Time-on-task was appropriate/transitions were smooth/child rewarded periodically for positive work.

CONCERNS
1. Tutor should ask child reason for response given/use more extended response questioning techniques.
2. Ensure content presented by tutor is factually, procedurally, and conceptually correct. For example when classifying words by prefix, tutor instructed child to place the word "prehistoric' under the "core word--pre". The core word is "historic" and the prefix is "pre". During a subject/verb agreement activity, there was no explanation for the selection of the appropriate answer or why it could be both answers.

Notes from p. 4 – Context and activities observed.

Activity 1: Focus was on the prefixes--pre-, post-, and pro-. Student read the sentence aloud, selected the word with the prefix, and wrote it in a column on a sheet of paper. If the student did not know the meaning of the word, the tutor used the computer to find the definition and a discussion followed. The columns on the paper were headed with the three prefixes. Tutor called the complete word the "core word" . "Prehistoric is your core word. Put it under the "pre-" column."

Activity 2: Fact vs. Opinion sheet. Student read material, then tutor read material. Child gave answer with no explanation.

Activity 3: Story for student to read with multiple choice comprehension questions. Tutor read material/ student read. Tutor asked "What do you know?" Child struggled with the reading.

Activity 4: Subject-verb agreement worksheet. Tutor did not explain the process for arriving at the correct answer.

Student was brought to the office of the provider for this observation. Tutoring is usually at the child's home.

Parent provided IEP upon request.

Tutor told child the purpose of each activity prior to beginning it.

Notes from p. 6 – A focus on learning is maintained.

Activity 1: Tutor gave child word, used it in a sentence, had him identify the prefix. "What does that mean?" Tutor-What does preserve mean? Child--I don't understand. Tutor typed word into computer to find the definition. Child read definition, tutor used word in a sentence (Sentence was related to placing a cover over a comic book in which the child had an interest), child stated he understood. Student placing words from sentences in columns headed by prefixes. Tutor called entire word "prehistoric" a core word and told student to place it in the core column under pre-.
Tutor mispronounced the word "preface" Pronounced it as "pre-face" with the "a" as a long "a". Again tutor referred to comic books in giving child examples to which he could relate.

Activity 2: Tutor gave child an example before having him begin the fact vs. opinion sheet. She explained what a fact was and what an opinion was. Tutor did not ask why child selected his answer for each statement. Told child "Some things can go two different ways, it just depends.", but no reason given to child for this statement.

Activity 3: Student read story out loud and then tutor read portions of the story. After completing the story, student had some multiple choice questions to answer. Student struggled but continually encouraged by tutor.

Activity 4: Subject/Verb agreement terminology was not used. Tutor told child to select the "verb that sounded right when he read the sentence". Opportunity to explain a process was missed--"25 pounds of water was/were spilled in the backpack".

Materials were appropriate for student's needs.
Tutor constantly asked "How do you know?' ; gave praise and rewards of peanut butter cups for correct responses at times.

Child was never off task the entire time except for one restroom break.

Notes from p. 7 – Appropriate support is provided for students to be engaged in learning.

Tutor directions for each activity were clearly presented and understood. Child told tutor if he did not understand and tutor re-explained using "real life" examples. Child let her know when he understood.
Tutor used "perfect", "very good", "yes", "Okay we are almost finished", "I am proud of you", "We will skip this one and look at this one." to keep child engaged.
Tutor gave child appropriate wait time to answer questions. When child had difficulty reading tutor assisted.
Transitions were quick, smooth, and appropriate.
Tutor read most of the questions from the reading comprehension worksheet. Gave appropriate clues and child responded verbally to the questions.Tutor--"Explain what you mean when you say eyes are glued..." Child answered--"It means staring".

When doing the subject/verb agreement worksheet, the tutor stated the following: "Say sentence with each word, see if it makes sense. Use the process of elimination". " Say the sentence out loud and it will sound funny to you."

Tutor supports student reading. Alternated reading paragraphs with the child. Then assisted with multiple choice questions using process of elimination and telling student to reread the selection.

"Absolutely an excellent job. Now try the next one." Tutor asked child if he had enough background to answer the question.

Tutor asked student to "hold on a second" and went to cleaning person making noise and asked them to quiet down.

Notes from p. 8 – The learning environment is supportive of student learning, safety and well-being.

Student/tutor at table with laptop and internet connection. Computer used to look up words.

Student is able to comprehend lessons, but faces a real challenge in completing each lesson due his disability. Student stayed focused on the activities during the entire observation.

Warm, well lit setting. Tutoring for this student is normally done at his home.

Respect/rapport evident between student/tutor. Tutor patient and in-tune to student's needs. "Do you need a minute?" Student--"I need to loosen up" Child went out to the restroom and when returned tutor gave him a peanut butter cup.
