Ohio | Department of Education

CCIP Note # 261

Keywords: SES
Attention: Superintendents, Treasurers, and Consolidated Application Contacts
Summary: Supplemental Educational Services approved provider listing is available, OAASFEP conference information, quality of service observations and technical tool.

SES approved provider list has been finalized

Superintendents, Treasurers, and Consolidated Application Contacts

As of Aug. 1, 2011, the SES approved provider list is available for dissemination. District personnel should check the list periodically as providers may be removed as part of the formal complaint process or though self-removal at any given time in school year.

1. To determine approved providers prepared to provide services to each LEA, click here.
    a. Follow Directions "Search for Providers by Area"
2. This spreadsheet makes available provider details in an Excel file. It is posted in the Document Library and may be used by LEAs in providing information to parents.

Please note: If a provider indicating service in a particular district is selected by a parent and subsequently refuses to serve, district personnel should indicate this via e-mail to PSC_SES@ode.state.oh.us with the circumstances surrounding the refusal. Failure to serve an area that is indicated in the provider application may be a violation of provider responsibilities and assurances and grounds for removal from the state list.

Technical Assistance Tool

Please review the newly developed document *Public School Choice and Supplemental Educational Services Technical Assistance Tool* for assistance in meeting the implementation requirements. Click here to view the document.

Conference Workshops

Two SES workshops will be offered at the October OAASFEP Conference. One workshop will be specifically for districts new to the PSC and SES requirements. The second workshop will be program updates for "experienced districts."

Quality of Services (QoS) Observations

SES Providers that received a QoS Observation during the 2010-2011 school year have their individual reports posted in the Document Library under Accountability section. Please note that to date not all providers have had an observation.
