Ohio | Department of Education

CCIP Note #271

Keywords: Allocations, Title I, and Title II-A
Attention: Superintendents, Treasurers, and Consolidated Application Contacts
Summary: United States Department of Education (USDoE) has made adjustments to Title I and Title II-A allocations.

U.S. Department of Education Adjusts Title I and Title II-A Allocations

Superintendents, Treasurers, and Consolidated Application Contacts

FYI

As you may know, USDOE has reduced Ohio's Title I and II-A (Improving Teacher Quality) allocations. Due to the timing of USDOE's notification, ODE has decided to include these adjustments as part of the re-allocation process in December 2011. Our goal is to limit the number of budget revisions the district would need to complete in a short amount of time.

This link is a comparison of the USDOE Title I allocation by districts. The spreadsheet only compares your district's original (July) USDOE calculated allocation to the newly adjusted USDOE allocation. It does not take into consideration the calculation process ODE must complete for a district's allocation. As stated above, these adjustments will be part of the re-allocation process in December 2011.

If you should have any questions please feel free to e-mail, Brian Jones, Director of Grants Management, at brian.jones@ode.state.oh.us.
