Ohio Department of Education

CCIP Note # 283

Keywords: Data Quality Review
Attention: Superintendents, Treasurers, and Consolidated Application Contacts
Summary: **Data Quality Review (DQR) results for the 2010-2011 fiscal year are now posted in the Document library.**

FYI

Superintendents, Treasurers and Consolidated Application Contacts

Data Quality Review (DQR) results for the 2010-2011 fiscal year are now posted in the CCIP Document Library (https://ccip.ode.state.oh.us/DocumentLibrary/Default.aspx?ccipSessionKey=634715669331164440), Keyword = Data Quality Review), along with DQR results for prior years.

The DQR, formerly called the Desk Audit, represents the 4th tier of the Program Audit and Compliance Tracking System (PACTS). The other tiers are the Self-Evaluation, Telephone Survey, and Onsite Review.

The DQR for 2010-2011 now contains seven items that measure adherence to federal requirements and guidelines using data extracted from the CCIP Consolidated Application, the EMIS data reporting system, and Local Report Card accounting. The 2010-2011 DQR shows results for all 1106 LEAs that had an approved FY2011 Consolidated Application.

LEAs are strongly encouraged to review their individual results and make adjustments as necessary to improve performance in subsequent years. A multi-year pattern of satisfactory results (i.e., meeting all or almost all DQR indicators) reflects a solid understanding of federal requirements and guidelines, combined with sound fiscal planning, data management, and process control in the areas covered. A pattern of poor DQR results (i.e., not meeting multiple indicators) increases the likelihood that a telephone survey will be initiated, and a multi-year pattern of poor DQR results is likely to result in an onsite review.
