Ohio | Department of Education

CCIP Note #294

Keywords: Waiver
Attention: Superintendents, Treasurers, and Consolidated Application Contacts
Summary: Under the Ohio ESEA Flexibility Waiver, LEAs must provide parents with information to explain why SES and transportation for PSC will no longer be offered. Within the notification to parents, explain the interventions, incentives, and support that will replace those options and provide other relevant details regarding the termination of the existing services.

Notification to Parents of Changes Due to the ESEA Flexibility Waiver

Superintendents, Treasurers, and Consolidated Application Contacts

FYI

Under the Ohio ESEA Flexibility Waiver, LEAs are no longer required by Federal law to offer Supplemental Educational Services (SES) or Public School Choice (PSC). However, starting in the 2012-2013 school year, LEAs must provide parents with information to explain why SES and transportation for PSC will no longer be offered, explain the interventions, incentives, and supports that will replace those options and provide other relevant details regarding the termination of the existing services. This information should be provided as early as feasible so that parents may plan accordingly.

This is a sample letter that can be used to inform parents about the ESEA Flexibility Waiver changes. It is recommended that multiple methods of communications be used including, but not limited to, letters, flyers, posting on LEA websites, newsletters and/or other communication to parents in a language and format that is understandable.

Review the sample letter and modify the letter to fit the districts needs at the following link: Sample Parent Notification Letter
