FYI

Superintendents, Treasurers and Consolidated Application Contacts

This is to inform you of new changes made recently to the CCIP Consolidated Application, Title III LEP and Immigrant grants pages. These changes came as a result of federal review and a monitoring visit of Ohio's Title III program implementation process. It was recommended that Ohio seek additional information and description of activities from districts and schools for each line item on the budget. As a result, we have included additional boxes for activity description in the budget detail pages. These additional clarifications will enhance the review and approval process by providing critical information such as the number of teachers paid from Title III, and the nature of supplies purchased. Please revise your 2013-2014 budget detail pages by adding the requested information. **The changes will be available starting Friday, November 22, 2013.**
