CCIP Note # 358

Re: Indirect Cost Recovery Proposals deadline extended to April 30, 2016.
Date: March 18, 2016
To: **Superintendents, Treasurers, Title I Directors/Coordinators and Consolidated Application Contacts**

Indirect Cost Rates

Updates to the Fiscal Year 2016 Indirect Cost Recovery Proposal resulted in an extended delay in making the proposal available this year. Districts and schools must submit their proposals by **April 30, 2016**. The department allowed grantees to use their approved FY15 rates in FY16 until the approval of the current year's rate. For consideration of indirect costs currently charged to the FY16 grant as an allowable expense, the FY16 Indirect Cost Recovery proposal must meet the deadline. If a grantee does not meet the proposal deadline, the department will remove its approved rate by June 15, 2016. This will require the grantee to back out all indirect charges and complete a budget revision to reallocate the funds currently allocated to indirect costs.
