CCIP Note # 367

Re: Updated Assurances
Date: December 8, 2016
To: Superintendents, Treasurers, Title I Directors/Coordinators and Consolidated Application Contacts

In order to comply with new requirements under the Every Student Succeeds Act (ESSA), the Office of Federal Programs has updated the assurances that are part of the Consolidated Application. One of the new assurances (#45), pertains to the requirements for districts and community schools to designate a point of contact for the education stability of children in foster care and implementation of written procedures on transportation to maintain children in foster care in their school of origin when in their best interest. This requirement becomes effective December 10, 2016.

When a school district or community school submits a budget revision or project cash request (PCR) the new assurances will be in effect. The updated assurances are #5, 18 and 45-49. To review the assurances, please click here.
