

Understanding Title IA: Supplement, Not Supplant (SNS)

Office of Federal Programs · August 2018

Ohio | Department of Education

Today's Discussion

What is the **purpose** of *Supplement, Not Supplant?*

Adding

federal funds to state and local resources

Replacing

local resources with federal funds

Above and beyond
How would you fund the activity if there were *no federal funds*?

SNS compliance is ***different*** for **Title I, Part A.**

Compliance test for ESEA Titles II-IV

Uses previous presumptions of supplanting.

Nothing changed.

Compliance test for ESEA Title I, Part A

Neutrality test.

This is different.

Compliance test for Title funds II-IV still use these presumptions

Services that are ***required*** under other federal, state or local laws

Services that were ***provided*** with nonfederal funds in the prior year

ESEA and Title IA Funds

Supplement, Not Supplant

Supplement the
funds that would
be made available

Demonstrate Compliance

Ensures it receives ALL funds it would otherwise receive -- if it were not receiving Title I, Part A assistance.

1
Weighted Per Pupil Methodology
2
Resource Allocation Methodology

- Allocation/student = $7,000
- Additional allocation/student from a low income family = $250
- Additional allocation/English learner = $500
- Additional location/student with a disability = $1,500
- Additional allocation/preschool student = $8,500

Weighted Per Pupil Methodology

Category	Calculation	Amount
Allocation/student	450 x $7,000	$3,150,000
Allocation/student from low-income family	200 x $250	$50,000
Allocation/English learner	100 x $500	$50,000
Allocation/student with a disability	50 x $1,500	$75,000
Allocation/preschool student	20 x $8,500	$170,000
		$3,495,000

- 1 teacher per 22 students ($65,000/teacher)
- 1 principal/school ($120,000)
- 1 librarian/school ($65,000)
- 2 guidance counselors/school ($65,000/guidance counselor)
- $825/student for instructional materials and supplies (including technology)

Resource Allocation Methodology

Category	Calculation	Amount
1 principal	1 x $120,000	$120,000
1 librarian	1 x $65,000	$65,000
2 guidance counselors	2 x $65,000	$130,000
21 teachers	21 x $65,000	$1,365,000
Materials, supplies	450 x $825	$371,250
		$2,051,250

It is the local district's responsibility to determine the non-federal resources used to meet basic educational needs.

Districts that have a single school are excluded.

Districts with one school per grade span are excluded.

Special Issues to Consider

Title I resources should be expended at the building level.

New Title I SNS compliance is applicable at the building level.

District-level uses are subject to previous presumptions.

Special
Rule
SCHOOL

Example: Meeting Requirements

$90 per elementary school student

$65 per middle school students

$80 per high school students

Example:
NOT Meeting Requirements

A district implemented a STEM program in five schools using state/local funds.

Next year, they only have enough local funds to pay for two schools so they use Title I funds.
