CCIP Note # 415

Re: FY 20 Funding Percentages
Date: July 9, 2019
To: Consolidated Funding Application Contacts, Superintendents/CCIP Authorized Representatives, and Treasurers/CCIP Fiscal Representatives of Public Schools, Community Schools, STEMs, and ESCs

On Sunday, June 30th, Governor DeWine signed a temporary appropriation measure (SB 171). The bill provides for a 17-day interim budget. As a result, both state and federal appropriations are limited to approximately 4.5% of prior year levels. The funding percentages were adjusted to limit the flow of funds from the CCIP. **Once the General Assembly passes, and Governor DeWine approves the biennial budget, the funding percentages will be set to their normal percentages**.

The following actions were taken,

- For Fiscal Year 2019 State and Federal grants, funding percentages are set at 100%.
- For Fiscal Year 2020 grants,
    - State grants, funding percentages are set at zero due to the Department not having the authorization to award state grants.
    - Federal grants, the funding percentages are sent to the interim appropriation level for the fund.
