CCIP Planning Tool (Addendum A) – No Fiscal Year 2006 Plan Available

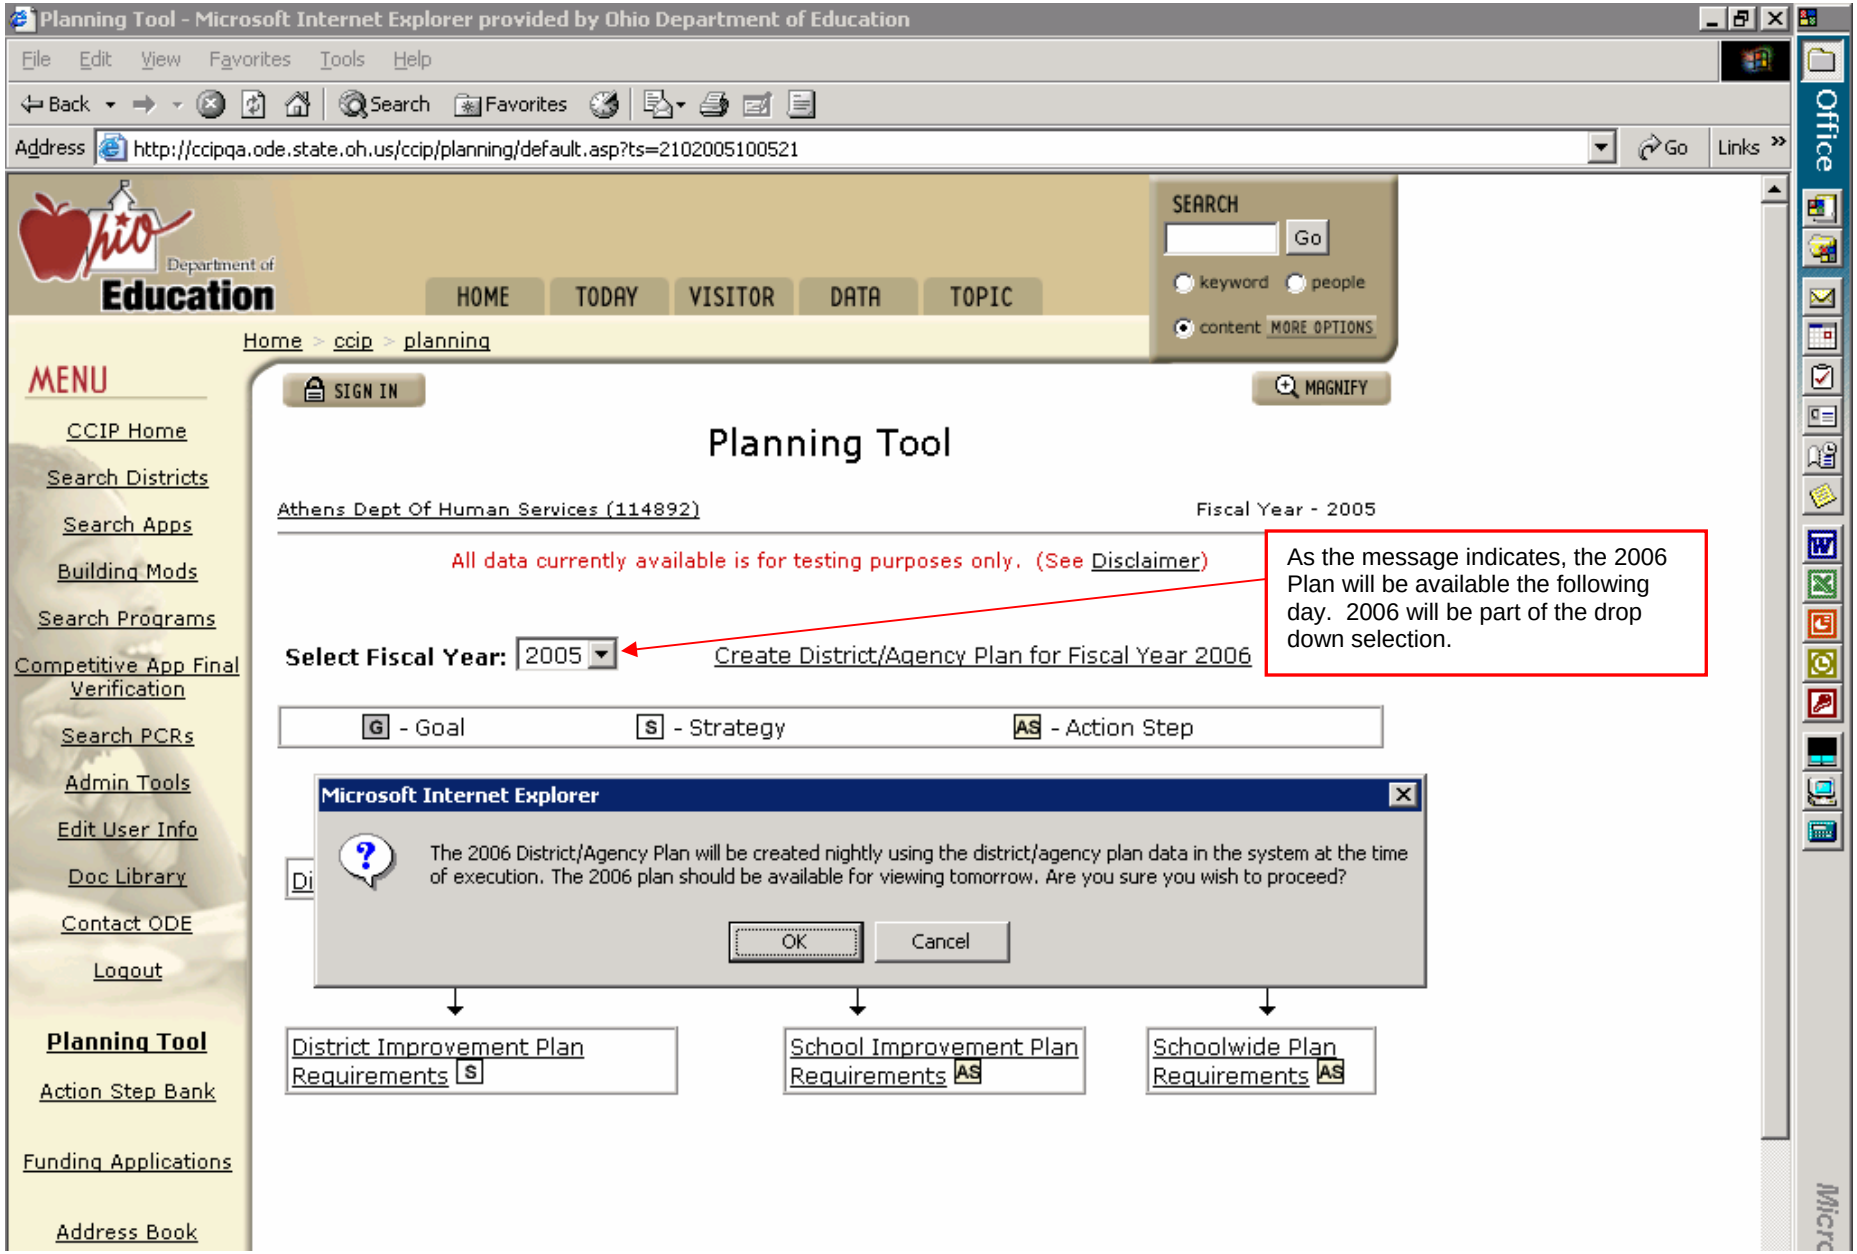

The possibility exists that a district or agency may not have created a District/Agency Plan prior to January 31st, 2005 when the plans that existed as of that date were made available for Fiscal Year 2006. As a result, any entity in this situation will need to create at least a skeleton version of a Fiscal Year 2005 plan and then create their 2006 plan via a link labeled "Create District/Agency Plan for Fiscal Year 2006". Once a user clicks on this link, the 2006 plan will be made available to the district or agency the following day.

The following screens provide information on how to proceed through this process.
