CCIP Note #548

Re: Community School Enrollment Data Available from FLICS Report
Date: April 1st, 2024
To: Superintendents, Treasurers, Authorized Representatives, Fiscal Representatives and Consolidated Funding Application Contacts

COMMUNITY SCHOOL ENROLLMENT DATA AVAILABLE FROM FLICS

The Federal Low-Income System (FLICS) is now open and closes on April 25th, 2024. The FLICS report allows community schools and other Local Educational Agencies (LEAs) to review data on students between ages 5-17 who were enrolled in a community school and identified as economically disadvantage in the Education Management Information System (EMIS). The FLICS data is an important component to make federal funding allocation determinations for community schools and make the necessary adjustments to the formula used for allocations to account for students located at a particular traditional district but enrolled in a community school. Community schools and other LEAs should review the report to verify the data before April 25th, 2024. For questions or information on this FLICS report, please contact daphne.rees@education.ohio.gov.

SUMMER EXTENSION REQUESTS

Districts wishing to use federal funds for costs associated with supplemental programming for the summer months (July 1st to September 30th) according to their fiscal year 2024 consolidated budget and plan may submit a request of a Summer Extension. In other words, the state fiscal year ends on June 30th, but a summer extension request allows for the eligible costs during the summer to be accredited to the state fiscal year ending on June 30th. Any summer expenditures reported under this request must be included on the district's FY24 Final Expenditure Report (FER) that is due September 30th. In order to submit a Summer Extension Request, a district must enter a History Log comment containing the following information:

A.) The grants for which they are requesting the summer extension
B.) The specific dates they are requesting beyond July 1st for the extension.
C.) The reason they are requesting their summer extension and specific uses for their summer programming.
D.) An assurance that the district will complete their FER by September 30th.

Districts/Schools should receive a History Log reply from their assigned Federal Programs consultant indicating they have received the request and whether it has been approved or if additional information is requested.

UPCOMING ED STEPS TRAINING

- Cohort 2 & 3 One Plan Webinar on April 17th from 10am-11am

If you have any questions, please reach out to your Federal Programs consultant or email federalprograms@education.ohio.gov.
