CCIP Note #581

Re: Consolidated Application Grant Reallocations and Expiring Funds Reporting
Date: January 5, 2026
To: Superintendents, Treasurers, Authorized Representatives, Fiscal Representatives and Consolidated Application Contacts of Public Districts, Community Schools, STEM Schools, ESCs

CONSOLIDATED APPLICATION GRANT REALLOCATIONS

The Ohio Department of Education and Workforce (DEW) is in process of completing Fiscal Year 2026 (FY26) Consolidated application grant allocation adjustments to match Ohio's final Elementary and Secondary Education Act (ESEA) Title grant awards. Title grant "reallocation" adjustments generally occur each year. See CCIP Note 580 for more details. For most Local Educational Agencies (LEAs), this will be a small adjustment to the grant allocations within the LEA's Consolidated application. DEW will load reallocation amounts for impacted LEAs in the Comprehensive Continuous Improvement Plan (CCIP) Consolidated application during the week of January 5, 2026.

A change in allocations may require your LEA to complete a Consolidated application revision. LEAs in Final Approved status may automatically be changed to "Revision Started" and will receive an email generated through the CCIP indicating the status change. In addition, LEAs should be aware that reallocations may require the LEA to adjust equitable service amounts if the LEA is serving nonpublic schools. Finally, please note that some Consolidated application grants may load before others. LEAs may want to wait until the end of the week to submit a Consolidated application revision to ensure they have received all the reallocation adjustments. This will allow the LEA to adjust all their Consolidated application grant budgets at once to prevent needing additional budget revisions.

EXPIRING FUNDS REPORTING

The Expiring Funds Report (formerly 9/30 Report) is now available in the CCIP for LEAs to complete that have at-risk/expiring funds. The purpose of the Expiring Funds Report is to allow LEAs to report obligated expenditures in the final three months of a federal award (typically July 1 to September 30) to prevent these funds from expiring. See CCIP Note 580 for more information.

An LEA will only need to complete an Expiring Funds Report if the LEA had funds that were originally awarded in FY24, and were in the final three months of the grant from July 1 to September 30, 2025, or if the LEA had more than the 15 percent carry over limit in Title I-A from FY25 into FY26. LEAs can see if they have amounts at risk on the Expiring Funds Report by clicking the Expiring Funds Report icon from the left-hand menu in the CCIP. For LEAs that have Expiring Funds, the LEA Fiscal Representative must submit the Expiring Funds Report by **January 28, 2026.**

Special Note: After the Expiring Funds Report process, LEAs that still have over 15 percent carryover in Title I-A will also be able to apply in the CCIP for a Title I carryover waiver, if available. An LEA may only receive a Title I carryover waiver once every three years. Note that the 15 percent carryover limit does not apply to LEAs that receive a Title I allocation of less than $50,000.

If you have questions about reallocations or the Expiring Funds Report, please contact your Federal Programs specialist, listed as the "Consolidated Contact" in the CCIP Address Book.
